

# ISFTD 2024 POSTER PRESENTATIONS

Schedule poster presentations	
P001-P124	Day 1   Thursday, 19 September
P125-P274	Day 2   Friday, 20 September
P275-P398	Day 3   Saturday, 21 September
P400-P431	Caregivers Day, Saturday 21 September + Day 4, Sunday 22 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P001 / PB1.1	Cross-Linguistic Assessment Of Oral Production In Primary Progressive Aphasia: Insight From English, Chinese, and Italian.	Diversity	Gaia Chiara	Santi	Italy	Gaia Chiara Santi	Poster Presentations Day 1 - Thursday 19 September
P002 / PB1.2	The role of bilingualism on functional decline and neurodegeneration in distinct ADRD neuropathologies	Diversity	Jessica	De Leon	United States	Jessica De Leon	Poster Presentations Day 1 - Thursday 19 September
P003 / PB1.3	Insights into Dyslexia Phenotypes and Hypometabolism in Spanish-Speaking Patients with Primary Progressive Aphasia	Neuropsychology	Florentina	Morello Garcia	Argentina	Florentina Morello Garcia	Poster Presentations Day 1 - Thursday 19 September
P004 / PB1.4	The influence of cultural background on social cognition in genetic FTD	Diversity	Liset	De Boer	Netherlands	Liset De Boer	Poster Presentations Day 1 - Thursday 19 September
P005 / PB2.1	Baseline characteristics for INFRONT-3: A Phase 3 double-blind, placebo-controlled 96-week study evaluating tozozinemab in FTD-GRN	Clinical trials	Lawrence	Carter	United States	Lawrence Carter	Poster Presentations Day 1 - Thursday 19 September
P006 / PB2.2	Communication Bridge 2: Results from a global randomized controlled trial (RCT) for primary progressive aphasia	Clinical trials	Emily	Rogalski	United States	Emily Rogalski	Poster Presentations Day 1 - Thursday 19 September
P007 / PB2.3	Interim Safety and Biomarker Data From upliFT-D Trial of PBFT02 in FTD with GRN Mutations	Clinical trials	Mark	Forman	United States	Juan Chavez	Poster Presentations Day 1 - Thursday 19 September
P008 / PB6.4	Detection of misfolded TDP-43 in CSF from genetic FTD and FTD/ALS patients	Fluid biomarkers	Ilaria Linda	Dellarole	Italy	Ilaria Linda Dellarole	Poster Presentations Day 1 - Thursday 19 September
P009 / PB3.1	CSF/serum albumin ratio in frontotemporal lobar degeneration syndromes	Fluid biomarkers	Federico	Verde	Italy	Federico Verde	Poster Presentations Day 1 - Thursday 19 September
P010 / PB3.2	The identification of GRN mutation carriers by a simple finger stick collection - DropAD	Fluid biomarkers	Hanna	Huber	Sweden	Hanna Huber	Poster Presentations Day 1 - Thursday 19 September
P011 / PB7.3	Spontaneous speech alterations and evolution in primary progressive aphasia variants	Neuropsychology	Elisa	Canu	Italy	Elisa Canu	Poster Presentations Day 1 - Thursday 19 September
P012 / PB7.4	The dynamics of auditory working memory impairment in primary progressive aphasia and Alzheimer's disease	Neuropsychology	Benjamin	Levett	United Kingdom	Benjamin Levett	Poster Presentations Day 1 - Thursday 19 September
P013 / PB7.5	Practice effects are reduced within prodromal and symptomatic FTD mutation carriers using the Ignite app	Neuropsychology	Kerala	Adams-Carr	United Kingdom	Kerala Adams-Carr	Poster Presentations Day 1 - Thursday 19 September
P014	Decreased Employment Status Linked to Frontotemporal Dementia and Early Onset Alzheimer's Disease 10 Years Before the Diagnosis	Epidemiology	Ave	Kivisild	Finland	Ave Kivisild	Poster Presentations Day 1 - Thursday 19 September
P015	Time to diagnosis and its predictors in Frontotemporal Lobar Degeneration	Epidemiology	Valeria	Bracca	Italy	Valeria Bracca	Poster Presentations Day 1 - Thursday 19 September
P016	Using real-world-data to characterize common diagnoses among patients with frontotemporal dementia in the United States	Epidemiology	Harjeet	Dhillon	United Kingdom	Harjeet Dhillon	Poster Presentations Day 1 - Thursday 19 September
P017	GENFI - Neurodevelopment	Epidemiology	Kristy	Coleman	Canada	Kristy Coleman	Poster Presentations Day 1 - Thursday 19 September
P018	Occupational exposures modify longitudinal decline in frontotemporal degeneration	Epidemiology	Lauren	Massimo	United States	Lauren Massimo	Poster Presentations Day 1 - Thursday 19 September
P020	The effect of deprivation on absolute and independent survival in frontotemporal lobar degeneration syndromes	Epidemiology	Anna Jane	Dreyer	United Kingdom	Anna Jane Dreyer	Poster Presentations Day 1 - Thursday 19 September
P021	Exploration of tonic recruitment and apathy in people living with frontotemporal dementia within ecological settings	Epidemiology	Elena	Karpinski	France	Elena Karpinski	Poster Presentations Day 1 - Thursday 19 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P022	10 years of PiPPIN- an epidemiological cohort study of syndromes associated with Frontotemporal Lobar Degeneration	Epidemiology	Katherine	Stockton	United Kingdom	Katherine Stockton	Poster Presentations Day 1 - Thursday 19 September
P023	EFRONT (EPIDEMIOLOGICAL STUDY IN FRONTOTEMPORAL DEMENTIA): Design and Preliminary Findings	Epidemiology	Jefri	Jeya Paul	Germany	Jefri Jeya Paul	Poster Presentations Day 1 - Thursday 19 September
P024	Disease-modifying factors in frontotemporal dementia: a systematic review	Epidemiology	Thamires	Marx Da Silva Santos	Brazil	Thamires Marx Da Silva Santos	Poster Presentations Day 1 - Thursday 19 September
P025	Cross-cultural Comparison of Early Behavioral Changes in bvFTD	Epidemiology	Fan	Ji	Belgium	Fan Ji	Poster Presentations Day 1 - Thursday 19 September
P026	GEOGRAPHIC BIAS IN HAND PREFERENCE WITHIN POSTERIOR CORTICAL ATROPHY, SEMANTIC DEMENTIA, AND TYPICAL AD	Epidemiology	Zachary	Miller	United States	Zachary Miller	Poster Presentations Day 1 - Thursday 19 September
P028	A novel approach to identify carriers of familial FTD variants via online channels	Epidemiology	Sergio	Bauer	United States	Sergio Bauer	Poster Presentations Day 1 - Thursday 19 September
P029	Greater neighborhood deprivation is related to shorter survival in behavioral-variant frontotemporal degeneration	Epidemiology	Rory	Boyle	United States	Rory Boyle	Poster Presentations Day 1 - Thursday 19 September
P030	The Neurofilament Surveillance Project (NSP): A biomarker study to sample blood quarterly in familial frontotemporal lobar degeneration	Fluid biomarkers	Rachel	Acuna-Narvaez	United States	Rachel Acuna-Narvaez	Poster Presentations Day 1 - Thursday 19 September
P032	miRNA expression in neuronal derived extracellular vesicles in bvFTD and PPD: the DIPPA-FTD study	Fluid biomarkers	Chiara	Fenoglio	Italy	Daniela Galimberti	Poster Presentations Day 1 - Thursday 19 September
P034	Neural Derived Extracellular Vesicles miRNA cargo and Neuroimaging Profiles in Frontotemporal Dementia and Bipolar Disorder	Fluid biomarkers	Maria	Serpente	Italy	Maria Serpente	Poster Presentations Day 1 - Thursday 19 September
P035	Brain volumetry and serum neurofilament light differentiate between behavioral variant frontotemporal dementia and major depression	Fluid biomarkers	Leonie	Werner	Germany	Leonie Werner	Poster Presentations Day 1 - Thursday 19 September
P036	Proteomic profiles of underlying pathologies in genetic frontotemporal dementia.	Fluid biomarkers	Aitana	Sogorb-Esteve	United Kingdom	Aitana Sogorb-Esteve	Poster Presentations Day 1 - Thursday 19 September
P037	Inflammatory profiles in Frontotemporal Dementia: A GENFI study	Fluid biomarkers	Katie	Thompson	United Kingdom	Katie Thompson	Poster Presentations Day 1 - Thursday 19 September
P038	Plasma proteomic changes in Progranulin mutations carriers on the novel NULISA platform.	Fluid biomarkers	Valentina	Cantoni	Italy	Valentina Cantoni	Poster Presentations Day 1 - Thursday 19 September
P039	Blood-based biomarkers in C9orf72: RNA-foci and DPRs in PBMCs	Fluid biomarkers	Julie	De Houwer	Netherlands	Julie De Houwer	Poster Presentations Day 1 - Thursday 19 September
P041	Blood and CSF GFAP associate with brain astrogliosis in autopsied frontotemporal lobar degeneration	Fluid biomarkers	Katheryn	Cousins	United States	Katheryn Cousins	Poster Presentations Day 1 - Thursday 19 September
P042	Plasma biomarkers in primary progressive aphasia using a fully-automated platform	Fluid biomarkers	Jordi	Matias Guiu Antem	Spain	Jordi Matias Guiu Antem	Poster Presentations Day 1 - Thursday 19 September
P043	Neuron and glia cell-free DNA blood concentration: A new class of peripheral biomarker of neurodegeneration	Fluid biomarkers	Ramon	Landin-Romero	Australia	Ramon Landin-Romero	Poster Presentations Day 1 - Thursday 19 September
P044	Neurofilaments and progranulin are related to atrophy in frontotemporal lobar degeneration - A transdiagnostic study cross-validating atrophy and fluid biomarkers	Fluid biomarkers	Matthias	Schroeter	Germany	Matthias Schroeter	Poster Presentations Day 1 - Thursday 19 September
P045	Stratification of frontotemporal lobar degeneration-related syndromes using plasma ptau217 for clinical trials	Fluid biomarkers	Alexander	Murley	United Kingdom	Alexander Murley	Poster Presentations Day 1 - Thursday 19 September
P046	Distinguishing bvFTD from psychiatric disorders using neuroimaging and NfL	Fluid biomarkers	Sean	Coulborn	United States	Sean Coulborn	Poster Presentations Day 1 - Thursday 19 September
P047	Fluid biospecimens and genetic data: new collection and dissemination pipelines serving the dementia research community	Fluid biomarkers	Argentina	Lario Lago	United States	Argentina Lario Lago	Poster Presentations Day 1 - Thursday 19 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P048	Sentence comprehension deficits in English and Italian nvPPA: A cross-linguistic comparison.	Diversity	Gaia Chiara	Santi	Italy	Gaia Chiara Santi	Poster Presentations Day 1 - Thursday 19 September
P049	ASPIRE-FTD: A Phase 1/2 Clinical Trial to Evaluate AVB-101 in FTD with GRN Mutations: Study Update	Clinical trials	Jane	Chan	United Kingdom	David Cooper	Poster Presentations Day 1 - Thursday 19 September
P050	CSF proteome profiling identifies novel biomarker panels for Frontotemporal Dementia	Fluid biomarkers	Yanaika	Hok-A-Hin	Netherlands	Yanaika Hok-A-Hin	Poster Presentations Day 1 - Thursday 19 September
P051	Comparing clinical rating scales in FTD: which should we choose for future trials?	Clinical trials	Eve	Ferry-Bolder	United Kingdom	Eve Ferry-Bolder	Poster Presentations Day 1 - Thursday 19 September
P052	Comparing the biomarker potential of plasma glial fibrillary acidic protein and neurofilament light in frontotemporal dementia spectrum disorders	Fluid biomarkers	Tania	Gendron	United States	Tania Gendron	Poster Presentations Day 1 - Thursday 19 September
P054	Blood Neurofilament light chain has limited value in differentiating frontotemporal dementia from primary psychiatric disorders.	Fluid biomarkers	Tim	Van Langenhove	Belgium	Tim Van Langenhove	Poster Presentations Day 1 - Thursday 19 September
P056	$\alpha$ -synuclein and TDP-43 seeding activities in the olfactory mucosa of a patient with GRN mutation	Fluid biomarkers	Paola	Caroppo	Italy	Paola Caroppo	Poster Presentations Day 1 - Thursday 19 September
P057	StopFTD with digital behavior markers	Neuropsychology	Han	van Doorn	Netherlands	Han van Doorn	Poster Presentations Day 1 - Thursday 19 September
P058	Overt and subtle temporal motor impairments in PPA and bvFTD	Neuropsychology	Adam	Vogel	Australia	Adam Vogel	Poster Presentations Day 1 - Thursday 19 September
P059	The Northwestern Anagram Test for Primary Progressive Aphasia: Computer Module (NAT-C)	Neuropsychology	Sandra	Weintraub	United States	Sandra Weintraub	Poster Presentations Day 1 - Thursday 19 September
P061	Brain structural and functional correlates of the generation of combination of remote semantic associates in frontotemporal dementia	Neuropsychology	Victor	Altmayer	France	Victor Altmayer	Poster Presentations Day 1 - Thursday 19 September
P062	The speech-to-song illusion in frontotemporal dementia and Alzheimer's disease	Neuropsychology	Jess	Jiang	United Kingdom	Jess Jiang	Poster Presentations Day 1 - Thursday 19 September
P063	Sleep disturbance associated with temporal lobe degeneration in frontotemporal dementia	Neuropsychology	Jess	Jiang	United Kingdom	Jess Jiang	Poster Presentations Day 1 - Thursday 19 September
P064	In depth comparison of the neuropsychological profile of primary psychiatric disorders and behavioral variant FTD	Neuropsychology	Agnes	Deneve	France	Agnes Deneve	Poster Presentations Day 1 - Thursday 19 September
P065	Scalar Implicatures in CBD and bvFTD Italian-Speaking Individuals: Preliminary Results	Neuropsychology	Silvia	De Marchi	United States	Silvia De Marchi	Poster Presentations Day 1 - Thursday 19 September
P068	The interplay between pleasurable event generation and anhedonia and apathy in dementia - A preliminary study	Neuropsychology	Siobhan	Shaw	Australia	Siobhan Shaw	Poster Presentations Day 1 - Thursday 19 September
P069	A means to an end – Impaired social problem-solving in frontotemporal dementia	Neuropsychology	Muireann	Irish	Australia	Muireann Irish	Poster Presentations Day 1 - Thursday 19 September
P070	A multimodal approach for the treatment of Primary Progressive Aphasia	Neuropsychology	Ilaria	Pagnoni	Italy	Ilaria Pagnoni	Poster Presentations Day 1 - Thursday 19 September
P071	Disentangling Neural Correlates of Reading the Mind in the Eyes and Executive Functions in Behavioral Variant Frontotemporal Dementia	Neuropsychology	Christopher	Weise	Germany	Christopher Weise	Poster Presentations Day 1 - Thursday 19 September
P072	Comparative diagnostic accuracy of MLSE, ACE-III, and DCQ for the diagnosis of primary progressive aphasia	Neuropsychology	Lucia	Fernandez Romero	Spain	Lucia Fernandez Romero	Poster Presentations Day 1 - Thursday 19 September
P073	Use of the Aphasia Impact Questionnaire in individuals with primary progressive aphasia - preliminary results	Neuropsychology	Zsolt	Cséfalvay	Slovakia	Zsolt Cséfalvay	Poster Presentations Day 1 - Thursday 19 September
P075	A common marker of emotion recognition dysfunction in the FTLD spectrum of disorders	Neuropsychology	Elisa	Canu	Italy	Elisa Canu	Poster Presentations Day 1 - Thursday 19 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P076	Introducing a new eye tracking task for social cognition in FTD	Neuropsychology	Liset	De Boer	Netherlands	Liset De Boer	Poster Presentations Day 1 - Thursday 19 September
P077	Affective and cognitive theory of mind and associated brain functional alterations in patients with PPA	Neuropsychology	Chiara	Tripodi	Italy	Chiara Tripodi	Poster Presentations Day 1 - Thursday 19 September
P078	Social functioning during lifetime influences the extent of behavioural decline in frontotemporal lobar degeneration	Neuropsychology	Monica	Consonni	Italy	Monica Consonni	Poster Presentations Day 1 - Thursday 19 September
P079	Apathy in FTLT-disorders: living in a world of "close enough"	Neuropsychology	Rebecca	Williams	United Kingdom	Rebecca Williams	Poster Presentations Day 1 - Thursday 19 September
P082	Update on the current state of speech and language testing in Alzheimers disease	Neuropsychology	Adam	Vogel	Australia	Adam Vogel	Poster Presentations Day 1 - Thursday 19 September
P083	The utility of Speech and language Analytics for screening Alzheimer's disease and Schizophrenia	Neuropsychology	Adam	Vogel	Australia	Adam Vogel	Poster Presentations Day 1 - Thursday 19 September
P084	Loss of word concreteness as an organisational principle of the semantic network in PPA SV	Neuropsychology	Rik	Vandenberghe	België	Rik Vandenberghe	Poster Presentations Day 1 - Thursday 19 September
P085	The Cambridge Questionnaire for Apathy and Impulsivity Traits (CamQUAIT): a novel assessment tool for FTLT	Neuropsychology	Rebecca	Williams	United Kingdom	Rebecca Williams	Poster Presentations Day 1 - Thursday 19 September
P087	Exploring language functioning differences in behavioral variant frontotemporal degeneration and primary psychiatric disorders	Neuropsychology	Agnes	Deneve	France	Agnes Deneve	Poster Presentations Day 1 - Thursday 19 September
P088	It's all about how it's said: investigation of expressive prosody in FTLT & AD	Neuropsychology	Agnes	Deneve	France	Agnes Deneve	Poster Presentations Day 1 - Thursday 19 September
P089	Neuropsychological patterns in DSM-5 mild and major NCD warrant new approaches in conceptualizing dementia syndromes	Neuropsychology	Fabiola	Boehm	Germany	Fabiola Boehm	Poster Presentations Day 1 - Thursday 19 September
P090	The Dutch Mini-Linguistic State Examination (MLSE-NL): Preliminary Findings in Primary Apraxia of Speech (PAOS)	Neuropsychology	Rosie	Coppieters	Belgium	Rosie Coppieters	Poster Presentations Day 1 - Thursday 19 September
P091	Neuropsychological assessment in differentiating between behavioral variant frontotemporal dementia and Alzheimer's disease: a follow-up study	Neuropsychology	Noora-Maria	Suhonen	Finland	Noora-Maria Suhonen	Poster Presentations Day 1 - Thursday 19 September
P092	Impaired Aversion to Harming Others During Moral Decision-Making correlates with antisocial behaviors in bvFTD Patients	Neuropsychology	Ryan	Darby	United States	Ryan Darby	Poster Presentations Day 1 - Thursday 19 September
P093	Can performance on a picture description task differentiate the nonfluent/agrammatic and logopenic variants of primary progressive aphasia?: Evidence from Catalan-Spanish bilinguals	Diversity	Stephanie	Grasso	United States	Stephanie Grasso	Poster Presentations Day 1 - Thursday 19 September
P094	Spanish language and Costa Rican cultural adaptation of the ALLFTD genetic counseling protocol	Diversity	Sylvia	Josephy-Hernandez	Costa Rica	Sylvia Josephy-Hernandez	Poster Presentations Day 1 - Thursday 19 September
P095	Informant effect on the CDR® plus NACC FTLT SB scores in behavioural-variant Frontotemporal dementia	Diversity	Juan-Camilo	Vargas-gonzalez	Canada	Carmela Tartaglia	Poster Presentations Day 1 - Thursday 19 September
P096	Raising global awareness of frontotemporal dementia: The rise of World FTD United	Diversity	Sharon	Denny	United States	Tracey Wardill	Poster Presentations Day 1 - Thursday 19 September
P098	Perceived FTD Risk and Clinical Trial Perspectives	Clinical trials	Shana	Dodge	United States	Shana Dodge	Poster Presentations Day 1 - Thursday 19 September
P099	The Progranulin Information Navigator: A Tool to Support GRN-FTD Clinical Trial Recruitment	Clinical trials	Laura	Mitic	United States	Laura Mitic	Poster Presentations Day 1 - Thursday 19 September
P100	Long-term Effect of Transcranial Magnetic Stimulation in Primary Progressive Aphasia (RECONNECT-PPA): study protocol for a Randomized, Double-Blind Clinical Trial	Clinical trials	Lucia	Fernandez Romero	Spain	Lucia Fernandez Romero	Poster Presentations Day 1 - Thursday 19 September
P102	FOXY - A Phase 2 Clinical Trial of Intranasal Oxytocin for Frontotemporal Dementia	Clinical trials	Kristy	Coleman	Canada	Kristy Coleman	Poster Presentations Day 1 - Thursday 19 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P103	Noradrenaline treatment of apathy and impulsivity in participants with Progressive Supranuclear Palsy syndromes (NORAPS).	Clinical trials	Rob	Durcan	United Kingdom	Rob Durcan	Poster Presentations Day 1 - Thursday 19 September
P104	A phase 2 placebo controlled randomised controlled trial of sodium selenate as a disease modifying treatment for progressive supranuclear palsy	Clinical trials	Lucy	Vivash	Australia	Lucy Vivash	Poster Presentations Day 1 - Thursday 19 September
P105	ASPIRE-FTD: A Phase 1/2 Clinical Trial to Evaluate AVB-101 in FTD with GRN mutations (FTD-GRN)	Clinical trials	Jane	Chan	United Kingdom	Jane Chan	Poster Presentations Day 1 - Thursday 19 September
P106	Veri-T: a Phase 1, randomized, placebo-controlled trial of Verdiperstat in svPPA: an interim update	Clinical trials	Peter	Ljubenkov	United States	Peter Ljubenkov	Poster Presentations Day 3 - Saturday 21 September
P107	The Early Detection of Frontotemporal Dementia and Motor Neuron Disease (EDoF) Project	Clinical trials	Kerala	Adams-Carr	United Kingdom	Kerala Adams-Carr	Poster Presentations Day 1 - Thursday 19 September
P108	Telerehabilitation and home-based transcranial direct current stimulation for people with primary progressive aphasia	Clinical trials	Anna	Rysop	Germany	Anna Rysop	Poster Presentations Day 1 - Thursday 19 September
P109	Pipeline to Participation: A Family-led Effort to Understand Perspectives among FTD-GRN Families	Clinical trials	Wanda	Smith	United States	Wanda Smith	Poster Presentations Day 1 - Thursday 19 September
P110	Informants (Study Partners) in presymptomatic FTD Research: Highlighting uncharacterized and uncommunicated potential risks	Clinical trials	Jean	Swidler	United States	Jean Swidler	Poster Presentations Day 1 - Thursday 19 September
P111	Caregiver Preferences for Peer-to-Peer Support in the Connect2Caregiver Research Study Cohort	Clinical trials	Leah	Forsberg	United States	Leah Forsberg	Poster Presentations Day 1 - Thursday 19 September
P112	Biomarker analysis from PROCLAIM, a Gene Therapy Trial for Frontotemporal Dementia Patients with GRN Mutations	Clinical trials	Sebastian	Boland	United States	Olga Uspenskaya	Poster Presentations Day 1 - Thursday 19 September
P113	Results of Low-Dose Lithium Clinical Trial for Treatment of Behavioral Symptoms in FTD	Clinical trials	Colin	Stein	United States	Masood Manoochehri	Poster Presentations Day 1 - Thursday 19 September
P114	GENFI motor scores correlate with objective motor measures	Clinical trials	Justin	Kwan	United States	Justin Kwan	Poster Presentations Day 1 - Thursday 19 September
P117	Early dysregulation of microglia-secreted AIM in frontotemporal dementia caused by CHMP2B mutation	Fluid biomarkers	Anders	Toft	Denmark	Anders Toft	Poster Presentations Day 1 - Thursday 19 September
P118 / PB10.2	Different grey matter, white matter and functional connectivity involvement in genetic FTD: a cross-modality GENFI study	Fluid biomarkers	Arabella	Bouzigues	France	Arabella Bouzigues	Poster Presentations Day 1 - Thursday 19 September
P119 / PB10.3	The Hinting Task–Dutch version Differentiates Patients with Frontotemporal Dementia and Alzheimer’s Disease Dementia from Controls	Neuropsychology	Marie-Christine	van de Glind	Netherlands	Marie-Christine van de Glind	Poster Presentations Day 1 - Thursday 19 September
P120	Geographic Distribution of Alzheimer’s and Frontotemporal Dementia Patients in the REDLAT Project in Bogotá, Colombia	Epidemiology	Luisa Fernanda	Gomez Navarro	Colombia	Diana Matallana	Poster Presentations Day 1 - Thursday 19 September
P121	Associations of LATE and along-the-tract fractional anisotropy show unique spatial patterns of reduced white matter integrity and relationships with cognition	Fluid biomarkers	Lei	Wang	United States	Lei Wang	Poster Presentations Day 1 - Thursday 19 September
P122	Blood-based immunophenotyping of T cell profiles in patients with frontotemporal lobar degeneration	Fluid biomarkers	Frederika	Malichova	United States	Frederika Malichova	Poster Presentations Day 1 - Thursday 19 September
P123	Cortical microstructural imaging across disease stages and cognitive decline in genetic FTD: a GENFI study	Fluid biomarkers	Melissa	Rydell	Sweden	Caroline Graff	Poster Presentations Day 1 - Thursday 19 September
P125 / PB5.1	Connectomic markers of executive function in frontotemporal degeneration and typical aging	Imaging biomarkers	Jeffrey	Phillips	United States	Jeffrey Phillips	Poster Presentations Day 2 - Friday 20 September
P126 / PB4.4	White Matter Hyperintensities are An Early Biomarker in GRN-related Frontotemporal Dementia	Imaging biomarkers	Mahdie	Soltaninejad	Canada	Mahdie Soltaninejad	Poster Presentations Day 2 - Friday 20 September
P127 / PB4.1	Integrative transcriptomic analysis of the frontal cortex reveals an upregulation of S100A6 in FTLD-TDP	Genetics	Isabell	Cordts	United States	Isabell Cordts	Poster Presentations Day 2 - Friday 20 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P128 / PB4.2	UNC13A polymorphism shortens survival in behavioural variant frontotemporal dementia	Genetics	Lianne	Reus	Netherlands	Lianne Reus	Poster Presentations Day 2 - Friday 20 September
P129 / PB4.3	Genetic influences on progression of clinical, motor, fluid biomarker and MRI changes in familial FTLD	Genetics	Adam	Staffaroni	United States	Adam Staffaroni	Poster Presentations Day 2 - Friday 20 September
P130	Neurodevelopmental brain reserve in genetic frontotemporal dementia	Imaging biomarkers	Luke	Harper	Sweden	Luke Harper	Poster Presentations Day 2 - Friday 20 September
P131	Neurodevelopmental implications of genetic FTD revealed through intracranial volume differences in mutation carriers and non-carriers	Imaging biomarkers	Isis	So	Canada	Isis So	Poster Presentations Day 2 - Friday 20 September
P132	A Functional Magnetic Resonance Imaging Study of Musical Object Processing in Dementia	Imaging biomarkers	Lucy	Core	United Kingdom	Lucy Core	Poster Presentations Day 2 - Friday 20 September
P133	Altered empathy processing in frontotemporal dementia A task-based fMRI study	Imaging biomarkers	Olof	Lindberg	Sweden	Olof Lindberg	Poster Presentations Day 2 - Friday 20 September
P134	Visual rating scales of atrophy to differentiate Frontotemporal dementia from Primary psychiatric disorder: DIPPA study	Imaging biomarkers	Giorgio Giulio	Fumagalli	Italy	Giorgio Giulio Fumagalli	Poster Presentations Day 2 - Friday 20 September
P135	Unraveling amyloid and tau contributions to neurodegeneration in CBS: a multimodal PET study	Imaging biomarkers	Alma	Ghirelli	Italy	Alma Ghirelli	Poster Presentations Day 2 - Friday 20 September
P136	Investigating Neuroinflammation in Frontotemporal Lobar Degeneration using Ultra-High Field MRI	Imaging biomarkers	Fieke	Prinse	Netherlands	Fieke Prinse	Poster Presentations Day 2 - Friday 20 September
P137	Sulcal morphology analysis to differentiate behavioral variant frontotemporal dementia from psychiatric disorders	Imaging biomarkers	Giorgio Giulio	Fumagalli	Italy	Giorgio Giulio Fumagalli	Poster Presentations Day 2 - Friday 20 September
P138	TSPO PET predicts volumetric MRI changes in Progressive Supranuclear Palsy.	Imaging biomarkers	Noah L.	Shapiro	United Kingdom	Noah L. Shapiro	Poster Presentations Day 2 - Friday 20 September
P139	Structural brain alterations in patients with criminal behavior in frontotemporal dementia	Imaging biomarkers	Matthias	Schroeter	Germany	Matthias L Schroeter	Poster Presentations Day 2 - Friday 20 September
P140	Longitudinal progression of subcortical structural damage in amyotrophic lateral sclerosis	Imaging biomarkers	Edoardo Gioele	Spinelli	Italy	Edoardo Gioele Spinelli	Poster Presentations Day 2 - Friday 20 September
P141	Distinctive longitudinal cortical atrophy progression patterns characterize clinical variants of the frontotemporal dementia continuum	Imaging biomarkers	Edoardo Gioele	Spinelli	Italy	Edoardo Gioele Spinelli	Poster Presentations Day 2 - Friday 20 September
P142	A pipeline for comparing and combining TSPO-PET tracers: Progressive Supranuclear Palsy as an exemplar disorder.	Imaging biomarkers	Harry	Crook	United States	Harry Crook	Poster Presentations Day 2 - Friday 20 September
P143	Neuroimaging meta-analyses reveal the convergence of interoception, emotion, and social cognition across neurodegenerative diseases	Imaging biomarkers	Jessica	Hazelton	Chile	Jessica Hazelton	Poster Presentations Day 2 - Friday 20 September
P144	Discovery and preclinical development of [18F]ACI-19626, a first-in-class TDP-43 PET tracer	Imaging biomarkers	Viktoriiia	Gerasymchuk	Switzerland	Viktoriiia Gerasymchuk	Poster Presentations Day 2 - Friday 20 September
P146	Structure-function decoupling in genetic frontotemporal dementia	Imaging biomarkers	Kamen	Tsvetanov	United Kingdom	Kamen Tsvetanov	Poster Presentations Day 2 - Friday 20 September
P147	Neural mechanisms underlying memory deficits in premanifest C9orf72-repeat expansions	Imaging biomarkers	Jiaze	Sun	Belgium	Jiaze Sun	Poster Presentations Day 2 - Friday 20 September
P148	Unravelling White Matter Integrity Changes in Genetic Frontotemporal Dementia	Imaging biomarkers	Ninon	Peysson	France	Ninon Peysson	Poster Presentations Day 2 - Friday 20 September
P149	Cortical thickness and volume in genetic frontotemporal dementia: a cross-sectional and longitudinal study	Imaging biomarkers	Giulia	Campana	France	Giulia Campana	Poster Presentations Day 2 - Friday 20 September
P150	Accuracy of FDG-PET to differentiate sporadic bvFTD from late onset psychiatric disorders	Imaging biomarkers	Ishana	Rue	Canada	Ishana Rue	Poster Presentations Day 2 - Friday 20 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P151	Quantifying progression in early and late-onset behavioral variant frontotemporal dementia with structural neuroimaging	Imaging biomarkers	Fabiola	Boehm	Germany	Fabiola Boehm	Poster Presentations Day 2 - Friday 20 September
P152	Distinguishing Frontotemporal Lobar Degeneration Tau from TDP-43 using white matter microstructure	Imaging biomarkers	Hamsanandini	Radhakrishnan	United States	Hamsanandini Radhakrishnan	Poster Presentations Day 2 - Friday 20 September
P153	Differential Involvement of the Dorsal and Ventral Temporo-Frontal Extreme Capsule Fasciculus in Primary Progressive Aphasia	Imaging biomarkers	Kyriaki	Neophytou	United States	Kyriaki Neophytou	Poster Presentations Day 2 - Friday 20 September
P154	Fibre-specific changes in amygdala-associated white matter tracts in frontotemporal dementia	Imaging biomarkers	Mengjie	Huang	Australia	Mengjie Huang	Poster Presentations Day 2 - Friday 20 September
P155	Transdiagnostic Network Localization of Social, Language, and Motor Symptoms in Frontotemporal Lobar Degeneration	Imaging biomarkers	Ryan	Darby	United States	Ryan Darby	Poster Presentations Day 2 - Friday 20 September
P156	Distinct brain imaging trajectories of motor speech disturbances in nonfluent progressive aphasia syndromes	Imaging biomarkers	Halle	Quang	Australia	Halle Quang	Poster Presentations Day 2 - Friday 20 September
P157	Lower amygdala volume correlates with TDP-43 load in limbic-predominant age-related TDP-43 encephalopathy (LATE).	Imaging biomarkers	Alex	Wesseling	Netherlands	Alex Wesseling	Poster Presentations Day 2 - Friday 20 September
P158	Common Associations of Transcranial Magnetic Stimulation (TMS) Parameters and Behavioral Symptoms in Different Neurocognitive diseases	Imaging biomarkers	Laura	Säisänen	Finland	Laura Säisänen	Poster Presentations Day 2 - Friday 20 September
P159	Unveiling Primary Progressive Aphasia Progression: A Longitudinal Study on Grey and White Matter Degeneration	Imaging biomarkers	Runtian	Miao	United States	Runtian Miao	Poster Presentations Day 2 - Friday 20 September
P160	Tau and TDP-43 pathologies show distinct patterns of neurodegeneration in frontotemporal dementia	Imaging biomarkers	Sophie	Matis	Australia	Sophie Matis	Poster Presentations Day 2 - Friday 20 September
P161	Semantic blurring and atrophy progression in FTLTDP-C pathology	Imaging biomarkers	Elena	Barbieri	United States	Elena Barbieri	Poster Presentations Day 2 - Friday 20 September
P162	Regional cerebral blood flow in vivo is associated with GFAP at autopsy in FTLTDP-tau	Imaging biomarkers	Christopher	Olm	United States	Christopher Olm	Poster Presentations Day 2 - Friday 20 September
P163	Public release of imaging data from ALLFTD and ARTFL-LEFFTDS	Imaging biomarkers	Christopher	Schwarz	United States	Christopher Schwarz	Poster Presentations Day 2 - Friday 20 September
P164	Medial temporal lobe subregional atrophy patterns in presymptomatic and symptomatic genetic frontotemporal lobar degeneration	Imaging biomarkers	Leslie	Gaynor	United States	Leslie Gaynor	Poster Presentations Day 2 - Friday 20 September
P165	Effects of De-Facing with mri_reface on the Statistical Power of Brain Imaging Biomarkers of PSP	Imaging biomarkers	Christopher	Schwarz	United States	Christopher Schwarz	Poster Presentations Day 2 - Friday 20 September
P166	Selective cytoarchitectonic network disruption in semantic dementia	Imaging biomarkers	Belen	Pascual	United States	Kaitlee Ornelas	Poster Presentations Day 2 - Friday 20 September
P167	Post-Mortem Validation of Translocator Protein (TSPO) as a PET Neuroinflammatory Biomarker in Progressive Supranuclear Palsy	Imaging biomarkers	Sasvi	Wijesinghe	United Kingdom	Maura Malpetti Annelies Quaegebeur	Poster Presentations Day 2 - Friday 20 September
P168	Post-mortem validation of synaptic biomarker UCB-J PET in progressive supranuclear palsy	Imaging biomarkers	George	Nolan	United Kingdom	George Nolan	Poster Presentations Day 2 - Friday 20 September
P169	Frontotemporal Dementia and Alzheimer Diagnosis using a Novel Resting-State Scalp EEG Marker	Imaging biomarkers	Luis	Sanchez	United States	Luis Sanchez	Poster Presentations Day 2 - Friday 20 September
P170	Early Primary Progressive Aphasia Atrophy Asymmetry as a Predictor of Neuropathological Diagnosis	Imaging biomarkers	Sarah	Simon	United States	Elena Barbieri	Poster Presentations Day 2 - Friday 20 September
P171	Functional Connectivity in Genetic Frontotemporal Dementia: a GENFI study	Imaging biomarkers	Arabella	Bouzigues	France	Arabella Bouzigues	Poster Presentations Day 2 - Friday 20 September
P172	NEUROANATOMY OF BEHAVIORAL CHANGES IN SEMANTIC VARIANT OF PRIMARY PROGRESSIVE APHASIA	Imaging biomarkers	Yulia	Shpilyukova	Russian Federation	Yulia Shpilyukova	Poster Presentations Day 2 - Friday 20 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P173	Longitudinal analysis of multi-center harmonized DTI-MRI data in genetic FTD.	Imaging biomarkers	Tine	Swartenbroekx	Netherlands	Tine Swartenbroekx	Poster Presentations Day 2 - Friday 20 September
P175	Neuropsychological dysfunction differentially relates to desegregation of brain networks in behavioral variant frontotemporal dementia	Imaging biomarkers	Melanie	Matyi	United States	Melanie Matyi	Poster Presentations Day 2 - Friday 20 September
P176	Latent atrophy factors in Primary Progressive Aphasia related to Alzheimer's pathology and linguistic features across different cultural settings.	Imaging biomarkers	Ismael	Calandri	Netherlands	Ismael Calandri	Poster Presentations Day 2 - Friday 20 September
P177	Free-water Diffusion and Quantitative T1 mapping in FTLD	Imaging biomarkers	Vishaal	Sumra	Canada	Vishaal Sumra	Poster Presentations Day 2 - Friday 20 September
P178	Identifying synaptic manifold effects of frontotemporal lobar degeneration	Imaging biomarkers	Manfred	Kitzbichler	United Kingdom	Manfred Kitzbichler	Poster Presentations Day 2 - Friday 20 September
P179	Longitudinal functional connectivity changes identify asymptomatic MAPT mutation carriers with signs of accelerated disease progression	Imaging biomarkers	Youjin	Jung	United States	Youjin Jung	Poster Presentations Day 2 - Friday 20 September
P180	Short and long-distance neural alterations in semantic dementia using advanced diffusion MRI techniques	Imaging biomarkers	Maria Luisa	Mandelli	United States	Maria Luisa Mandelli	Poster Presentations Day 2 - Friday 20 September
P181	Sleep-wake Characteristics and associated Atrophy in Frontotemporal Dementia	Imaging biomarkers	Ciaran	Considine	United States	Ciaran Considine	Poster Presentations Day 2 - Friday 20 September
P182	Reduced white matter integrity in right uncinate fasciculus predicts rule-breaking behavior in behavioral-variant frontotemporal dementia	Imaging biomarkers	Jayden	Lee	United States	Ryan Darby	Poster Presentations Day 2 - Friday 20 September
P183	Brain Age Gap Improves Predictions of Cognitive Scores Changes in Genetic Frontotemporal Dementia	Imaging biomarkers	Reza	Rajabli	Canada	Mahdie Soltaninejad	Poster Presentations Day 2 - Friday 20 September
P184	Different functional connectivity disruption patterns between logopenic variant PPA and Alzheimer's disease	Imaging biomarkers	Michele	Masson-Trottier	United States	Michele Masson-Trottier	Poster Presentations Day 2 - Friday 20 September
P185	Cerebral blood flow deficits and longitudinal decline in presymptomatic and symptomatic frontotemporal lobar degeneration	Imaging biomarkers	Amy	Wolf	United States	Amy Wolf	Poster Presentations Day 2 - Friday 20 September
P187	Effect of Semantic Feature Analysis (SFA) rehabilitation in patients with primary progressive semantic aphasia: a SCED study	Neuropsychology	Sarah	Maso	France	Sarah Maso	Poster Presentations Day 2 - Friday 20 September
P188	Diagnostic utility of the Social Behavior Observer Checklist in neurodegenerative assessment: Insights from Spain's biomarker-enriched cohort	Neuropsychology	Judit	Selma-Gonzalez	Spain	Judit Selma-Gonzalez	Poster Presentations Day 2 - Friday 20 September
P189	Measuring the sense of agency in patients with apathy: evidence from the intentional binding effect in FTD, AD and LBD	Neuropsychology	Rubina	Malik	Canada	Rubina Malik	Poster Presentations Day 2 - Friday 20 September
P190	Deep phenotyping of primary progressive aphasia to improve diagnosis	Neuropsychology	Aurore	Mahut-Dubos	France	Aurore Mahut-Dubos	Poster Presentations Day 2 - Friday 20 September
P191	Longitudinal language changes in primary progressive aphasia	Neuropsychology	Aurore	Mahut-Dubos	France	Aurore Mahut-Dubos	Poster Presentations Day 2 - Friday 20 September
P192	A novel observational task reveals behavioural patterns in unfamiliar environments associated with apathy in dementia	Neuropsychology	James	Carrick	Australia	Grace Wei	Poster Presentations Day 2 - Friday 20 September
P193	Clinical performance of socio-emotional sensitivity and empathy questionnaires in the early diagnosis of the frontotemporal dementia variants	Neuropsychology	Andrea	Panzavolta	Italy	Andrea Panzavolta	Poster Presentations Day 2 - Friday 20 September
P194	Preliminary Comparison of Outcome Measures Between FTD-specific Cognitive Testing Apps (ALLFTD App vs Ignite App)	Neuropsychology	Eva	Larsen	United Kingdom	Eva Larsen	Poster Presentations Day 2 - Friday 20 September
P195	Association between amygdala atrophy and social cognition in behavioural variant frontotemporal dementia and semantic dementia	Neuropsychology	Mengjie	Huang	Australia	Mengjie Huang	Poster Presentations Day 2 - Friday 20 September
P196	German Version of the Mini Social & Emotional Assessment: Clinical Utility and Structural Neural Correlates	Neuropsychology	Cem	Dogdu	Germany	Cem Dogdu	Poster Presentations Day 2 - Friday 20 September

P327	Factors associated with consultation and diagnostic delays in frontotemporal dementia	Clinic	Simon	Lecerf	France	Simon Lecerf	Poster Presentations Day 3 - Saturday 21 September
P328	Descriptive themes of dementia related sexual behavior changes: A transdiagnostic approach	Clinic	Manizhe	Eslami-Amirabadi	United States	Manizhe Eslami-Amirabadi	Poster Presentations Day 3 - Saturday 21 September
P329	APHASIC BINARY REVERSALS AS A NOVEL BIOMARKER OF NFVPPA AND CORTICOBASAL DEGENERATION PATHOLOGY	Clinic	Zachary	Miller	United States	Zachary Miller	Poster Presentations Day 3 - Saturday 21 September
P330	Evaluation of a brief smartphone cognitive task for predicting disease severity in frontotemporal dementia.	Clinic	Jack	Taylor	United States	Jack Taylor	Poster Presentations Day 3 - Saturday 21 September
P331	Frontotemporal Dementia: Presence of Agitation and Implications to Function	Clinic	Celine	Sakran	Canada	Celine Sakran	Poster Presentations Day 3 - Saturday 21 September
P332	Pre-clinical development of AVB-101, an AAV gene therapy treatment for frontotemporal dementia with progranulin mutations	Translational research	Carlos	Miranda	United Kingdom	Carlos Miranda	Poster Presentations Day 3 - Saturday 21 September
P333	Utilizing neuroimaging-based artificial intelligence for frontotemporal lobar degeneration diagnosis: A systematic review and meta-analysis	Translational research	Qiong	Wu	Germany	Qiong Wu	Poster Presentations Day 3 - Saturday 21 September
P334	Disentangling alterations in the bulk transcriptome from the brain of FTLD cases at single-cell resolution	Translational research	Oriol	Dols Icardo	Spain	Oriol Dols Icardo	Poster Presentations Day 3 - Saturday 21 September
P335	Exploring the effects of a multimodal approach for Primary Progressive Aphasia treatment on biological markers	Translational research	Sonia	Bellini	Italy	Sonia Bellini	Poster Presentations Day 3 - Saturday 21 September
P337	Identification of genetic and molecular hallmarks related to Frontotemporal Lobar Degeneration	Translational research	Antonio	Longobardi	Italy	Antonio Longobardi	Poster Presentations Day 3 - Saturday 21 September
P338	Deep transcriptomic profiling of the human frontal cortex in C9orf72-related FTLD and ALS	Translational research	Evan	Udine	United States	Evan Udine	Poster Presentations Day 3 - Saturday 21 September
P340	MRI-based Classifier to Identify Close-to-onset Cases in C9orf72 Genetic Frontotemporal Dementia	Translational research	Mahdie	Soltaninejad	Canada	Mahdie Soltaninejad	Poster Presentations Day 3 - Saturday 21 September
P341	Self-supervised speech representation learning creates a powerful classifier for frontotemporal dementia spectrum disorders	Translational research	Hugo	Botha	United States	Hugo Botha	Poster Presentations Day 3 - Saturday 21 September
P342	Unraveling temporal dynamics of brain transcriptome in ALS and ALS-FTD subtypes	Translational research	Ting	Shen	United States	Corey McMillan	Poster Presentations Day 3 - Saturday 21 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P343	Small Molecule Targeting of Chaperone {IP} prevents and reverses TDP-43 aggregation in vitro and in vivo	Translational research	Marc	Shenouda	Canada	Marc Shenouda	Poster Presentations Day 3 - Saturday 21 September
P344	L5ET neurons show overlapping yet distinct gene expression profiles across the cerebral cortex	Translational research	Felipe	Pereira	United States	Felipe Pereira	Poster Presentations Day 3 - Saturday 21 September
P345	Distinguishing sporadic behavioral-variant frontotemporal dementia from late-onset primary psychiatric disorders with data-driven progression modelling	Translational research	Vikram	Venkatraghavan	Netherlands	Vikram Venkatraghavan	Poster Presentations Day 3 - Saturday 21 September
P346	Granulins rescue neuroinflammation, lipofuscinosis, and lysosome dysregulation in a mouse model of progranulin deficiency.	Translational research	Thomas	Kukar	United States	Thomas Kukar	Poster Presentations Day 3 - Saturday 21 September
P347	Individual multimodal distances to predict time to disease onset for MAPT, GRN, and C9orf72 carriers.	Translational research	Agnès	Pérez-Millan	Spain	Agnès Pérez-Millan	Poster Presentations Day 3 - Saturday 21 September
P348	A Multi-omics approach defining the disease trajectory of FrontoTemporal Dementia	Translational research	Roberta	Giannelli	Netherlands	Roberta Giannelli	Poster Presentations Day 3 - Saturday 21 September
P349	Blood Brain Barrier Penetrant Progranulin Replacement Therapy	Translational research	Forest	Andrews	United States	Forest Andrews	Poster Presentations Day 3 - Saturday 21 September
P350	Distinct laminar networks of neuronal covariance in pathologic subgroups of behavioral variant frontotemporal dementia	Translational research	Daniel	Ohm	United States	Daniel Ohm	Poster Presentations Day 3 - Saturday 21 September
P351	Directional communication among salience, default, and frontoparietal networks support social inference-making in bvFTD	Translational research	Yu	Chen	United States	Yu Chen	Poster Presentations Day 3 - Saturday 21 September
P352	Impaired glymphatic system in genetic Frontotemporal Dementia: a GENFI study	Neuropathology	Enrico	Premi	Italy	Enrico Premi	Poster Presentations Day 3 - Saturday 21 September
P353	Contribution of skeletal muscle to neuromuscular junction defects in FUS-associated ALS	Neuropathology	Anne	Wienand	Belgium	Anne Wienand	Poster Presentations Day 3 - Saturday 21 September
P354	Neurovasculature-associated WDR49-positive astrocytes mark protein aggregation and neurodegeneration severity	Neuropathology	Ana	Rajicic	Netherlands	Ana Rajicic	Poster Presentations Day 3 - Saturday 21 September
P355	White Matter Integrity in Primary Progressive Aphasia due to 4R FTLT-tauopathies	Neuropathology	Antonia	Zouridakis	United States	Antonia Zouridakis	Poster Presentations Day 3 - Saturday 21 September
P356	Sequential neuroanatomical pattern of TAR DNA-binding protein 43 (TDP-43) propagation using imaging and pathological findings	Neuropathology	Golnaz	Yadollahikhales	United States	Golnaz Yadollahikhales	Poster Presentations Day 3 - Saturday 21 September
P357	Nigral neuronal dysfunction in various conditions associated with astrocytic predominant tau pathology: Nigral Tau-Astroglipathy (NITAG)	Neuropathology	Hidetomo	Tanaka	Canada	Hidetomo Tanaka	Poster Presentations Day 3 - Saturday 21 September
P358	Progranulin insufficiency and TDP-43 overexpression interact to worsen phenotypes in a mouse model of Frontotemporal Dementia	Neuropathology	Anna	Cook	United States	Anna Cook	Poster Presentations Day 3 - Saturday 21 September
P359	Differential Vulnerability of the Amygdala to 3R versus 4R FTLT-tauopathies	Neuropathology	Rachel	Keszycki	United States	Rachel Keszycki	Poster Presentations Day 3 - Saturday 21 September
P360	Investigating TMEM106B's Aggregatin and Impact on Nucleocytoplasmic Transport in an In Vitro Model	Neuropathology	Kedamawit	Tilahun	United States	Kedamawit Tilahun	Poster Presentations Day 3 - Saturday 21 September
P361	Activated Microglia in FTLT-TDP Type C	Neuropathology	Allegra	Kawles	United States	Allegra Kawles	Poster Presentations Day 3 - Saturday 21 September
P362	TDP-43 mislocalization triggers STMN2 cryptic splicing causing reduced mRNA and protein levels in FTD-ALS	Neuropathology	Sarat	Vatsavayai	United States	Sarat Vatsavayai	Poster Presentations Day 3 - Saturday 21 September
P363	Pathological Associations with the Progression of Frontotemporal Dementia (FTD)	Neuropathology	Rogan	Magee	United States	Rogan Magee	Poster Presentations Day 3 - Saturday 21 September
P364	Unprecedented combinations of rare degenerative pathologies in an octogenarian ex-football player	Neuropathology	Shelley	Forrest	Canada	Shelley Forrest	Poster Presentations Day 3 - Saturday 21 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P365	Novel glial populations in the pathogenesis of progressive supranuclear palsy	Neuropathology	Shelley	Forrest	Canada	Shelley Forrest	Poster Presentations Day 3 - Saturday 21 September
P366	DHX9 and hnRNP K are differentially localized in VENs and pyramidal neurons in FTD	Neuropathology	Fleur	Schipper	Netherlands	Fleur Schipper	Poster Presentations Day 3 - Saturday 21 September
P367	Neuropathological characteristics of a novel CHMP2B mutation	Neuropathology	Nina	Fransen	Netherlands	Nina Fransen	Poster Presentations Day 3 - Saturday 21 September
P368	Asymmetric Cortical Neuronal Density and Size in PPA with TDP-43 Proteinopathy: Effect of GRN Mutation	Neuropathology	Ivan	Ayala	United States	Ivan Ayala	Poster Presentations Day 3 - Saturday 21 September
P369	Longitudinal self-administered smartphone assessments capture cognitive decline and disease progression in presymptomatic and early symptomatic FTLT	Neuropathology	Mark	Sanderson-Cimino	United States	Adam Staffaroni	Poster Presentations Day 3 - Saturday 21 September
P370	Divergent Hippocampal Distribution of TDP-43 Pathology in FTLT-TDP vs LATE	Neuropathology	Sanaz	Arezoumandan	United States	David Irwin	Poster Presentations Day 3 - Saturday 21 September
P372	A cerebral organoid model of progranulin-associated frontotemporal dementia	Pathophysiological mechanisms	Sophie	Goldsmith	United Kingdom	Sophie Goldsmith	Poster Presentations Day 3 - Saturday 21 September
P373	The role of TDP-43-associated cryptic exon in KARLN in C9orf72-mediated cortical neurodegeneration	Pathophysiological mechanisms	Lauren	Gittings	United States	Lauren Gittings	Poster Presentations Day 3 - Saturday 21 September
P374	Progranulin acts in lysosomes to promote neuronal survival and growth	Pathophysiological mechanisms	Andrew	Arrant	United States	Andrew Arrant	Poster Presentations Day 3 - Saturday 21 September
P376	Baseline in vivo synaptic loss predicts functional decline in frontotemporal lobar degenerative syndromes	Pathophysiological mechanisms	Negin	Holland	United Kingdom	Zi Qi Kok	Poster Presentations Day 3 - Saturday 21 September
P377	Single-cell RNA-seq reveals striking reduction in peripheral naive CD8+ T cells and LINC02446 in PSP	Pathophysiological mechanisms	Phuong	Hoang	United States	Phuong Hoang	Poster Presentations Day 3 - Saturday 21 September
P378	Contribution of astrocytic SPARCL1 to cortical synaptic dysfunction in C9orf72-FTD/ALS	Pathophysiological mechanisms	Robert	Culibrk	United States	Robert Culibrk	Poster Presentations Day 3 - Saturday 21 September
P379	eIF5 enhances poly-GA RAN translation in C9orf72 FTLT/ALS models	Pathophysiological mechanisms	Shiho	Gotoh	Japan	Shiho Gotoh	Poster Presentations Day 3 - Saturday 21 September
P381	Systematic Review: Electrophysiological Markers in Neurodegeneration	Pathophysiological mechanisms	Stéphanie	De Keulenaer	Belgium	Stéphanie De Keulenaer	Poster Presentations Day 3 - Saturday 21 September
P382	Altered Expression of Membrane Proteins in C9orf72 Mutation-Associated ALS and FTD	Pathophysiological mechanisms	Boris	Rogelj	Slovenia	Boris Rogelj	Poster Presentations Day 3 - Saturday 21 September
P383	Modelling FTLT-FET using patient-derived induced pluripotent stem cell models	Pathophysiological mechanisms	Rafaela	Hasse e Silva Policarp	Belgium	Rafaela Hasse e Silva Policarpo	Poster Presentations Day 3 - Saturday 21 September
P384	Differential neuronal vulnerability to C9orf72 repeat expansion driven by Xbp1 transcription signature	Pathophysiological mechanisms	Teresa	Niccoli	United Kingdom	Teresa Niccoli	Poster Presentations Day 3 - Saturday 21 September
P385	Profiling Hypothalamic Energy Homeostasis Associated microRNA in DM-1, ALS and Healthy Controls	Pathophysiological mechanisms	Claire	Flaherty	United States	Claire Flaherty	Poster Presentations Day 3 - Saturday 21 September
P386	White matter pathology in FTD caused by GRN mutations.	Neuropathology	Hyunwoo	Lee	Canada	Hyunwoo Lee	Poster Presentations Day 3 - Saturday 21 September
P387	Improved Nonlinear Z-score Correction for Neuropsychological Testing of Patients with FTLT-Spectrum Disorders	Epidemiology	John	Kornak	United States	John Kornak	Poster Presentations Day 3 - Saturday 21 September
P388	Clinical Distinctions Between Progressive Supranuclear Palsy and Behavioral Variant Frontotemporal Dementia	Clinic	Deissy Milena	Garcia Garcia	Colombia	Diana Lucía Matallana	Poster Presentations Day 3 - Saturday 21 September
P389	Automatic extraction and visualisation of language markers in primary progressive aphasia.	Translational research	Fritz	Peters	United Kingdom	W. Richard Bevan-Jones	Poster Presentations Day 3 - Saturday 21 September

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P390	Corticobasal degeneration in The Mayo Clinic Brain Bank	Neuropathology	Dennis	Dickson	United States	Dennis Dickson	Poster Presentations Day 3 - Saturday 21 September
P391	Novel pathologic and genetic associations of N-terminal TAF15 in frontotemporal lobar degeneration	Neuropathology	Nikhil	Ghayal	United States	Nikhil Ghayal	Poster Presentations Day 3 - Saturday 21 September
P392	Proteomic alterations underlying Transactive response DNA binding protein 43 kDa type C	Neuropathology	Jolien	Schaevebeke	Belgium	Jolien Schaevebeke	Poster Presentations Day 3 - Saturday 21 September
P393	Regional and Laminar Distribution of Annexin-11 is Consistent with Pathologic Distribution in TDP-C	Neuropathology	Allegra	Kawles	United States	Allegra Kawles	Poster Presentations Day 3 - Saturday 21 September
P394	A proteomics approach to investigate neuroimmune dysfunction in genetic FTLD	Pathophysiological mechanisms	Chloe	Anastassiadis	Canada	Chloe Anastassiadis	Poster Presentations Day 3 - Saturday 21 September
P395	Exploring the pathophysiological consequences of TDP-43 mislocalization in retinal cells	Pathophysiological mechanisms	Silvia	Porta	United States	Silvia Porta	Poster Presentations Day 3 - Saturday 21 September
P397	Screening for factors that differentially regulate conventional translation and RAN translation in C9orf72-FTLD/ALS	Pathophysiological mechanisms	Kohji	Mori	Japan	Kohji Mori	Poster Presentations Day 3 - Saturday 21 September
P398	TMEM106B regulates the autophagic clearance of C9ALS/FTD GA-DPRs: in vivo evidence from a mouse model	Pathophysiological mechanisms	Pranjali Nitin	Divekar	Germany	Pranjali Nitin Divekar	Poster Presentations Day 3 - Saturday 21 September
P400 / PB2.4	Onset-predictive biomarker testing for clinical trial recruitment in FTD: perspectives of (potential) mutation carriers	Management	Charlotte	Graafland	Netherlands	Charlotte Graafland	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P401 / PB3.4	Psychoeducational program in Primary Progressive Aphasia: An innovative collaboration between the community and academic environments	Management	Monica	Lavoie	Canada	Monica Lavoie	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P402 / PB7.1	The Empathy Effect: Improving FTD Support, Medical Practices and Societal Awareness with an Immersive Approach	Management	Betsy	Hall	United States	Betsy Hall	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P403 / PB7.2	Transcranial Direct Current Stimulation for Primary Progressive Aphasia: Individualised Targeting Using Neuroimaging	Management	Christopher	Leahy	United Kingdom	Christopher Leahy	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P407	Global perspectives on speech and language therapy for Primary Progressive	Management	Anna	Volkmer	United Kingdom	Anna Volkmer	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P408	Group interventions for people with primary progressive aphasia and their care partners: considerations for clinical practice.	Management	Anna	Volkmer	United Kingdom	Anna Volkmer	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P409	Is intensive speech and language therapy acceptable or feasible for people with primary progressive aphasia?	Management	Anna	Volkmer	United Kingdom	Anna Volkmer	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P410	Nonverbal social behaviours: Disease specific profiles in primary progressive aphasia.	Management	Anna	Volkmer	United Kingdom	Anna Volkmer	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P411	Script Club: motivating change through remote group script training for people with primary progressive aphasia	Management	Richard	Talbot	United Kingdom	Richard Talbot	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P412	An integrative review of the impact of empathy loss on Frontotemporal Dementia Caregivers	Management	Lauren	Fisher	United States	Lauren Fisher	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P413	Longitudinal changes in functional capacity, cognition, and behaviour in the frontotemporal dementias and Alzheimer's disease	Management	David	Foxe	Australia	David Foxe	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P414	Targeting What Matters: Personalized goals for persons with primary progressive aphasia and their communication partners	Management	Angela	Roberts	Canada	Angela Roberts	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P415	Exploring families' interest in understanding genetic FTD	Management	Kim	Jenny	United States	Kim Jenny	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P417	A Randomized Clinical Trial of an Educational Intervention to Improve Caregiver Knowledge	Management	Katie	Brandt	United States	Katie Brandt	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)

Paper Reference	Paper Title	Theme	Submitted by: Name	Last Name	Country	Presenting Author	Session
P418	Impact of Advance Care Planning Educational Videos for Dementia Caregivers in the era of COVID-19	Management	Erin	Krahn	United States	Erin Krahn	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P419	PPA Tele-Savvy: Results of an Online Pilot Intervention with Caregivers of Persons with Primary Progressive Aphasia	Management	Darby	Morhardt	United States	Darby Morhardt	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P420	Participatory Research among People with Primary Progressive Aphasia: Participant Involvement in the Cope PPA Study	Management	Mirjam	Gauch	Germany	Mirjam Gauch	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P422	Understanding Caregiving Burdens in Primary Progressive Aphasia: The Role of Conversation Difficulties	Management	Angela	Roberts	Canada	Angela Roberts	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P423	Efficacy of acetylcholinesterase inhibitors in the logopenic variant of primary progressive aphasia	Management	Julie	Carrier-Auclair	Canada	Julie Carrier-Auclair	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P424	Post-diagnostic care pathways in frontotemporal dementia: Experiences and needs of family carers and considerations for interventions	Management	Grace	Wei	Australia	Grace Wei	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P425	Web-based Speech and Language Therapy approaches to managing individuals with Primary Progressive Aphasia in Italy	Management	Petronilla	Battista	Italy	Petronilla Battista	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P426	Communication partner training for primary progressive aphasia with a multilingual couple	Management	Ingvild Elisabeth	Winsnes	Norway	Ingvild Elisabeth Winsnes	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P428	When life defies illness: fighting FTD day by day	Neuropsychology	Maxime	Bertoux	France	Carl Cordonnier	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P429	Challenges Facing Caregivers of Individuals Diagnosed With Frontotemporal Dementia in the United States	Management	Grace	Mausisa	United States	Grace Mausisa	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P430	Exploring quality of life impact reported by caregivers in the FTD Insights Survey	Management	Devon	Chenette	United States	Devon Chenette	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
P431	Transcranial Magnetic Stimulation improves semantic knowledge and language network functional connectivity in svPPA	Management	Thiago	Paranhos	Brazil	Thiago Paranhos	Poster Presentations Caregiver Day (Saturday 21 Sept) and Day 4 (Sunday 22 Sept)
